### SPONGES FROM SPRUCE

It is hard for the average person to imagine a soft and long wearing sponge made from a spruce tree and yet that is the very thing that the industrial chemist has accomplished.

From wood cellulose has come a sponge which is softer than chamomile leaves and, unlike the natural sponge, when used to remove dirt and grease, oils or acids, it can be boiled and cleaned and thoroughly sterilized, says a writer in the October issue of C.H. Oval.

## Armistice Service

It was a very dignified service that was held Sunday afternoon last in the Memorial Hall in commemoration of the coming of armistice on the 11th of 1918. "One of the finest" was the comment of several.

Large Union Jacks held central place in the platform and streamer drapings with wreaths and decorations of poppies, silently telling their significance.

The service was conducted by Rev. V. M. Gilbert, B.A., B.D. and Rev. G. W. Lang, B. A., L.H.

Musical was furnished by the combined choir with Miss Edith Hillier as pianist. Miss Hillier's playing was particularly sympathetic both for the hymns and in her accompanying Mr. Albert Kent in his solos. It is difficult to find words to describe the sublime beauty of Mr. Kent's singing. Particularly his rendering of the solo "There is No Death," was very beautiful. It produced emotions that "do lie too deep for words."

The hymns, prayer scripture lessons were taken by Mr. Gilbert, while the address and latter part of the service was conducted by Mr. Lang. In his very thoughtful address, Mr. Lang dwelt not on the past but stressed the need of striving for the future to build a world based on the principles of Christ's teaching.

The Youth of today are in the front line of the Battle of Life, and they will succeed in gaining a peace observing world, only as they base their ideals on the principle of the Messiah. The speaker quoted the words of H. G. Wells, "The Gospels has been too great for our small hearts."

He mentioned the hoax of speed and other delusions that absorb the thoughts, and the massed pressure of human stupidity that distort the motives of people and lead them away from the humble Gospels. The speaker stated that too small a number have a living vital faith and touch with the Messiah, else the result of Christianity would be more dramatic.

We must know the "Secret of Water" of the "Living Water" of the teachings of the Gospels—then Christianity will win out and over come the revolt that seems at present so widespread. Youth is in the front line and must not break faith.

The above cut is the Canadian Memorial unveiled at Vimy Ridge in 1926.

—NOTICE—  
United Church Sunday School Christmas Concert will be held Thursday, December 23rd.

## ARMISTICE SMOKER

The Strathmore Legion Annual Armistice Smoker held last Monday night was attended by an assembly of close on a hundred members and their friends, in spite of adverse weather and roads, the Memorial Hall was again the scene of a very happy reunion.

The Chairman and President W. Gray in welcoming the gathering expressed the regret of H. G. Scott who was to have delivered the main address on being forced to cancel his visit at the last moment, but he did the best he could to lighten the disappointment by having his address typed and read by S. H. Crowther who delivered it in his usual able manner.

Mr. Scott gave a vivid account of his trip this past summer to Madrid, and gave a striking word picture of the country, the people, and the conditions under which the city lived under war conditions. He paid tribute to the courage of the defenders whom he met and talked with, and stated that their discipline was to be reckoned with because it was voluntary.

The toast to the Legion given by T. S. Hughes made the members feel the effect of his praise so much that they bid their friends in their coffee cups to bide their confusion. The response was given by Alex Walker, President Calgary Branch. Alex is now an annual visitor here, and is always has something of interest to say on Legion affairs. Having just returned from a visit to the Peace River District he told of conditions there, gave a short and concise report of what the Legion had accomplished and what they hoped to attain in the future. He made a very effective appeal, for unity and co-operation.

The toast to our guests, made by J. B. Watson voiced the pleasure at the opportunity afforded on such a night as this to have friends join in celebrating. He wanted to start the ball rolling on "tates that are told" on various nationalities the Scot bearing the brunt of the attack. At this point the respondents to this toast, too many to mention, interspersed the evening with many a good story. The good natured repartee caused many a hearty laugh. The concert party accompanying Mr. Walker included such singers as Edgar Rhy and A. Arthur. Their solos were a treat and they were more than generous with encores. Capt. Crowe at the piano assures an youth gathering of success. He was in great form. No smoker is complete without G. H. Patrick's songs which as usual added much to the entertainment. T. E. Wright led in the singing of the ever popular Abouette. The male choruses work was par excellence. Isn't it wonderful what a little hubbub can do to a man's tongue? If they would only sing that way in church.

The serving of refreshments was under the capable hands of W. L. MacKenzie assisted by a very able committee.

The affair terminated with the Hon. Accord group gathered around M. Baird at the piano. No names, so pack drill. We wish we could get the smoke out of our eyes, but maybe it's more than that that makes us so much in need of a "pick up" this a. m. It will take more than water to nurse this thirst.

## MODERN LUXURY FOR "HEAD-END" PASSENGERS

MEMBERS of the Board of Directors and officers of the Canadian National Railways are seen in the above photograph, sampling the comfort and of the first of fifty new air-conditioned coaches soon to go in service on regular trains. At the front on the left side of the aisle is R. C. Vaughan, Vice-President in charge of Purchases, Stores and Steamships. Behind him sit W. A. Kingland, Toronto, Vice-President, Central Region; R. J. Moffat, Bradwell, Sask., Director, and F. L. C. Bond, Toronto, General Manager, Central Region. On the right, according to one, are Wilfred Gagnon, Director, Montreal; John Roberts, Chief of Motive Power; J. H. Macdonald, Toronto; Johnston, General Passenger Traffic Manager, and Arthur D. Neale, Vice-President, Canadian Car and Foundry Company Limited, builders of the new coaches.

Extending the latest improvements in modern railway practice to the "head-end" of the train, the fifty coaches are equipped with air-conditioning, and the 64 seats with resilient Dunlopillo cushioning, are on swivels and adjustable to three positions. Aluminum panel racks and individual shades/tees and glares lights give the cars a smart interior appearance and add to the sense of luxury.

There is one corner of a foreign field That is forever England; Palestine, And men in ages yet to come will tell How ignorance that bred an army pale Came at the end and cried, "Good God! Did we ——" And shed belated tears, but quickly dried them. Last those, the few who yet survived, should see

A brass-hat playing Noddy beside them, And calm was needed then at any cost, With cheerful talk of tactical success; Some yards of bog indubitably crossed! Enough, it is too late for bitterness! Nor grief nor bitterness gives life again. To ninety thousand drowned and butchered men.

(In Memoriam: Third Ypres July 21, November 1, 1917.)  
by James Norman Hall

Though in recent years, research has brought the glass industry far, first in Germany and more recently in America much more remains to be done than has yet been accomplished. Thousands of useful new glasses await discovery. The architect and the sculptor can do far more with glass than has yet been tried. The builder of the future will want more, better, and cheaper glass. The astronomer swinging his eye through space, the physicist with his spectroscopic, the chemist with his retort and still, the biologist with his microscope, the surveyor with his transit, the physician with his thermometer are all clamoring for more, better and cheaper glass. The glass industry must continue to perform miracles.

(From "More Precious than Rubies," by George Russell Harrison).

### THOUGHT FOR TODAY—

WHAT does anxiety do? It does not empty tomorrow, brother, of its sorrow; but oh! it empties today of its strength. — Ian MacLaren

Lord Tweedsmuir has published a new book, named *Augustus*, and based on the Roman emperor of the first century. We are looking for a book from his pen based on his recent trip through Canada West. It should prove vitally interesting.

## AN ACKNOWLEDGMENT

The Company's elevators continue to re-  
 ceive a gratifying measure of patronage,  
 not only from share-holders, but also from  
 thousands of other farmer customers. It is  
 such support which in the past has provid-  
 ed the basis for the success of the Company  
 and which it must be the continued endeav-  
 or of the Company to merit.

In these words, in the last annual report,  
 the Directors of United Grain Growers  
 Limited acknowledged the loyal support of  
 the Company's patrons.
